

# **ORDINANCE REGULATING THE MANNER OF SALE OF TOBACCO PRODUCTS (CHAPTER 41)**

## **Section 1. Title.**

This ordinance shall be known as the Regulation to Protect Children from Illegal Tobacco Sales Ordinance.

## **Section 2. Findings and Purposes.**

The Freeport Town Council does hereby find that:

- (a) Substantial scientific evidence exists that the use of tobacco products causes cancer, heart disease, and various other medical diseases. The Surgeon General of the U.S. has found that tobacco-caused diseases are the leading cause of premature, preventable death and disability in the U.S.;
- (b) The National Centers for Disease Control have found that at least four hundred thirty-four thousand (434,000) Americans die each year from tobacco-caused diseases. The Surgeon General of the U.S. and the U.S. Department of Health and Human Services have found that a majority of those Americans die of tobacco caused diseases because addicted to nicotine in tobacco products as adolescents before the age of legal consent.
- (c) The National Institute on Drug Abuse has concluded that the nicotine in tobacco products is a powerful addictive drug and identify nicotine addiction as the most widespread example of drug dependence in the U.S.;
- (d) The Surgeon General of the U.S. has found that nicotine in tobacco products is as addictive as cocaine and heroin; and
- (e) The National Institute on Drug Abuse has found that tobacco use by adolescents precedes and is predictive of adolescent illicit drug use.

Accordingly, the Freeport Town Council finds and declares it in the public interest to prohibit self-service sales, self-service displays, racks and shelves of tobacco products except in those premises to which access by minors is not allowed.

The Freeport Town Council further finds it is within its basic police power to implement and enforce the provisions of this ordinance.
