

Tree Task Force Agenda
May 5, 2022
Town Hall Conference Room, 6:00

1. **Extract desired aspects** / wording from sample tree ordinances provided by Kim Ballard (15 minutes)

2. **Draft an outline** for a Freeport Tree Ordinance to send on to Sustainability Board (30 minutes)

3. **Discuss updated recommendations from Earl Gibson** (FPW) regarding remaining 2021-22 designated Tree funds (15 minutes):

“Between the two line items there is 14,056.07 left in the 21-22 budget. At this time we have around 8 trees to take down that will cost around \$10,000 and come out of the 21-22 budget... I would need to look at the location of the dead tree [identified in 2019 Project Canopy Survey]. But yes If the dead tree on the town ROW I don't see why we couldn't remove it this budget year.”

TTF Question: How do we maintain the current canopy as trees are removed / coordinate this process with Public Works?
