

**Come Learn the DOs and DON'Ts of  
Recycling with  
Ecomaine's Katrina Venhuizen.**

**When: Tuesday, June 25th, 6-7 pm.  
Where: Town Hall (Council  
Chambers)**

Contamination has become a major driver of the rising costs of recycling. In order to avoid surcharge fees, Freeport residents must bring contamination rates down below 5%.

Katrina will teach us which materials are contaminants, and which can be recycled. She will also train volunteers on effective techniques to educate residents who use the recycling silver bullets.
