

The Freeport Sustainability Advisory Board  
presents

# BUILDING SUSTAINABLE COMMUNITIES

Fresh Perspectives and Ideas  
from  
Our Neighbors

A Panel Discussion  
with  
Falmouth • Portland • South Portland  
**SUSTAINABILITY OFFICERS**

Monday, February 10

6:30 - 7:30pm

Freeport Community Center - 53 Depot Street

*Complimentary food will be provided along with beer from Maine Beer Company.*

Sustainability Officers from South Portland, Portland and Falmouth will discuss current projects, their successes and challenges, as well as what is on the horizon. Topics will include **energy use, transportation, building efficiency, pesticide/fertilizer use, greenhouse gas emissions and climate action plans.** Please bring your questions for the panel!

## Our Panel

**Troy H. Moon, Sustainability Director, City of Portland.** Troy implemented Portland's "pay as you throw" program & curbside recycling and led efforts to expand community agriculture & adopt low impact land management

practices. He oversaw the completion of Portland's greenhouse gas inventories, chaired the committee that drafted the City's Climate Action Plan in 2008 and led the LED streetlight conversion project. He leads the City's effort to transition to 100% renewable energy by 2040 and to reduce community wide greenhouse gas emissions 80% by 2050.

**Lucy Perkins, Sustainability Program Coordinator, City of South Portland.** Lucy oversees the development

and management of initiatives that span across the Sustainability Department's focus areas: waste reduction, buildings and energy use, transportation and land use, and climate adaptation. In addition to program management, she also assists in the development of community outreach and education campaigns.

**Kimberly Darling, Energy and Sustainability Coordinator, Town of Falmouth.**

Kimberly has helped upgrade the Town's streetlights and interior lights in most municipal

buildings to LEDs, and has been working to site a large scale solar array on a capped landfill. She oversees the Recycling & Energy Advisory Committee, Conservation Commission and the Highland Lake Leadership Team. She coordinates the annual Drive Electric, WindowDressers and the Home Energy Fair events.
