

MEMORANDUM

TO: Peter Joseph, Town Manager

FROM: Adam S. Bliss, Town Engineer *ASB*

DATE: December 30, 2021

SUBJECT: Grant Acceptance: GPCOG Planning Studies

This memorandum requests the Town Council to accept two planning grants from the Greater Portland Council of Governments (GPCOG). The two grants total \$50,000 for multi-use path designs along Mallett Drive and Route One South. The Town and GPCOG will partner to conduct feasibility analyses of possible route alignments for the pedestrian and bicycling paths. The goal is to identify the preferred route for each project and move the projects to the design phases. The Town's funding match will be relatively small, estimated at 10 percent of the total project. The Town's portion will be paid out of a capital appropriation to be requested in Fiscal Year 2023.
