To: Freeport Town Council
Mr. Peter Joseph, Town Manager
From: Charles D. Jordan, Jr., Fire Rescue Chief
Date: September 21, 2020
Ref.: Bids for Replacement of Freeport Fire Rescue – Car # 1 (“Chief’s Vehicle”)

On August 6, 2020 at 1000 hrs. the bid opening for a “Chief’s Vehicle” was conducted. Deputy Chief Eric Sylvain received the bids. Bidders were not allowed due to COVID-19 restrictions.

“Request for Bids” were sent to five (5) vendors:

1. Casco Bay Ford
2. Yankee Ford
3. Arundel Ford
4. Quirk Ford
5. Rowe Ford

Two (2) Bid packages were received:

1. **Casco Bay Ford**
 - \$44,671.00 2021 w/Gasoline Engine
 - \$47,821.00 2021 w/Hybrid Gasoline/Electric (Upcharge of \$3,150)
2. **Quirk Ford**
 - \$46,925.89 2020 w/Gasoline Engine
 - No Hybrid Option Presented

It is our recommendation that we purchase the vehicle from Casco Bay Ford as the “apples-to-apples” price is better by \$2,254.89 and the location of warranty service is superior, being just on the other side of the Freeport/Yarmouth municipal line. We make no recommendation as to the gasoline v. hybrid option, but rather have included a calculation utilizing modeling developed by the Ford Motor Company (attached). The calculation of the fuel savings results in an estimated payback period of 6.5 years with gasoline @ \$2.75/gallon. This timeframe is shorter than the likely economic life of the asset of 10 years and indicative of a savings of \$1,694 over the likely term of service. The calculation of CO₂ savings over the economic life of the vehicle is 31,120 lbs.

Delivery for the gasoline model is estimated at 60 to 90 days, while delivery for the hybrid model is estimated at 120 to 150 days. Passage of this Order tonight will allow a vehicle with either engine option to arrive on or before March 1, 2021, which will be the likely end of the economic life of the current asset due to expiration of the state inspection sticker.

Please do not hesitate to contact me at (207) 865-3421 or cjordan@freeportmaine.com if you need me to elaborate or if you have any questions.

Important Information Regarding How These Numbers Are Determined

Entering any unrealistic combination of data will negatively impact the accuracy of results shown.

1. EPA-estimated Combined rating of 24 mpg, Interceptor Utility Standard HEV AWD. Actual mileage will vary.
2. EPA-estimated Combined rating of 17 mpg, 3.7L Interceptor Utility AWD with unleaded gas. Actual mileage will vary.
3. Idle duration data collected with the assistance of Dearborn Police Department and Massachusetts State Police, April 2012–November 2013. Data collected on a total of six vehicles in police patrol use.
4. Idle fuel consumption estimates are based on fuel flow measurements taken during two hours of continuous idling. Vehicles were driven for 18 miles at highway speeds prior to idling. Idle testing was conducted in an indoor facility at 73 degrees F. The following vehicle accessories were activated during the test: climate control A/C, set to full cool condition and the vehicle audio system, set to 30 percent of maximum volume and to amplify radio for coverage and traffic.

If you have any questions, please call.

Sincerely,

Joe Cook

Ford Interceptor Utility Vehicle

It is the intent of these specifications to describe the Fire Rescue command vehicle, and take delivery in its completion, understanding that the vehicle could be purchased from a dealer as a "stock" unit. It would then be the responsibility of the Freeport Fire Rescue to complete the upfitting of this vehicle.
