Re: Property Tax Collection
Date: June 15, 2021

Staff is looking for council to authorize the write off of the interest on the following personal property account:

333 Seymour Excavation – \$2,069.98

Staff has pursued collection efforts and has worked diligently with the Property Owner over the last five years to collect back taxes and interest owed. Up until the Pandemic, the Property Owner was making payments and keeping in touch with staff on their status. At this time, Staff feels it is in the best interest of both the Town and this local business to collect the principal due and write off the old interest that is making it impossible for the business to catch up and become current on their taxes.

Please do not hesitate to contact me should you have any questions or concerns.
