

I have decided to resign from the Freeport Sustainability Advisory Board effective immediately for health reasons.

I have been dealing with health issues for a couple months and expect that to continue for another couple months.

This has made it difficult for me to focus on sustainability issues and contribute accordingly.

I believe that there is much work to be done and that someone else could be more productive, on the board, than I.

I am hopeful that I will be able to contribute, in a non-member capacity, in a couple months.

I have enjoyed working with all of you and wish you success going forward.
